

# SIGMA ACOOSTIK

Technical Services

"Discover superior acoustic solutions delivered to  
your doorstep."

# Empowering Silence, Amplifying Comfort

## About Sigmaacoostik

Our success is rooted in our expertise in tackling a wide range of noise-related challenges, always prioritizing practical and cost-effective solutions.

Allow us to assist you with tailored recommendations for isolating various equipment, from air conditioning units to industrial machinery. Our advanced floating floor, wall, and suspended ceiling systems are designed to enhance STC, offering superior vibration isolation and noise control capabilities.

Collaborating closely with architects, developers, and consultants, we seamlessly integrate into project teams, providing invaluable expertise and support.

# Our Products

Sigmaacoostik specialize in providing a complete range of building acoustics field testing services tailored to meet the needs of both residential and commercial clients.

Utilizing the latest standards, alongside cutting-edge equipment, we conduct precise building acoustics measurements across the MENA Region. Our team collaborates closely with builders, developers, and architects to ensure that building partitions meet the required field values, delivering accurate and reliable results.

## Acoustic Fabric Wall Panels

- \* Resolves noise and echo
- \* Customized Thickness
- \* Customized sizes
- \* Customized colors
- \* High Performance
- \* Eco Friendly

## **ACOUSTIC POLYESTER PANELS**

- \* Resolves noise and echo
- \* 9-12 MM thickness
- \* Colors as per availability
- \* Customized sizes
- \* Architecturally Decorative

## ACOUSTIC STRETCH FABRIC PANELS

- \* Resolves noise and echo
- \* Customized Thickness
- \* Customized sizes
- \* Customized colors
- \* High Performance
- \* Eco Friendly
- \* Easily Replaceable

## ACOUSTIC HEXAGONAL WALL PANELS

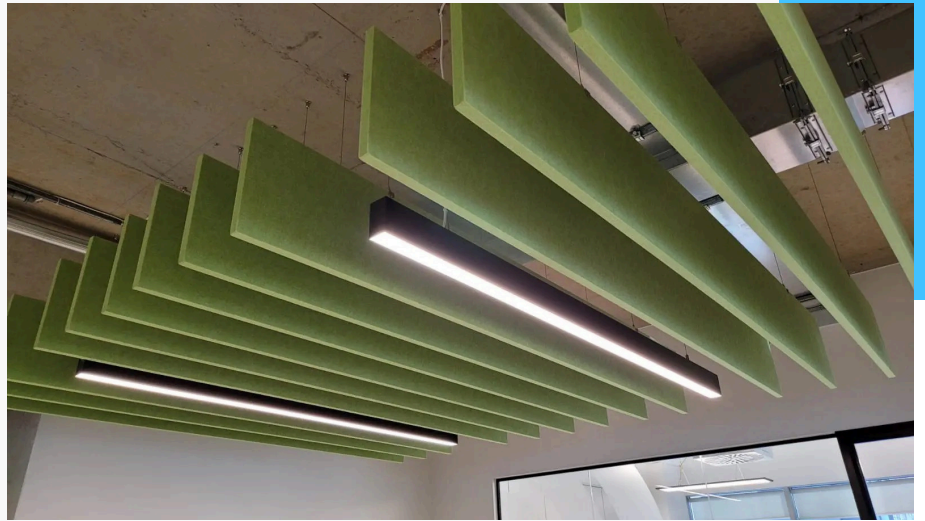

- \* Resolves noise and echo
- \* Customized Thickness
- \* Customized sizes
- \* Customized colors
- \* High Performance
- \* Architecturally Decorative

## Acoustic Fabric Ceiling Baffles

- Resolves noise and echo
- Customized Thickness
- Customized sizes
- Customized colors
- Affordable price
- High Quality
- High Performance

## Acoustic G.I Metal Panels

- Resolves noise and echo
- Customized Thickness
- Customized sizes
- Powder coated colors
- High Performance

## Acoustic G.I Metal Lining

- Resolves noise and echo
- 50 MM or 100 MM Thickness
- Powder Coated Colors
- Industrial and commercial use

---

## Acoustic Enclosure

- Resolves noise and echo
- Durable Construction
- Proper Ventilation
- Prevents Heat Build up
- PowderCoated Colors
- Industrial and commercial use

## Acoustic Floating Wall

- Resolves noise and echo
- Rockwool or Fiberglass Insulation used
- Industrial and Commercial use

## Acoustic Floating Ceiling

- \* Resolves noise and echo
- \* Rockwool or Fiberglass Insulation used
- \* Industrial and Commercial use

## Acoustic Floating Floor

- \* Resolves noise and echo
- \* Industrial and Commercial use

## Acoustic Lagging

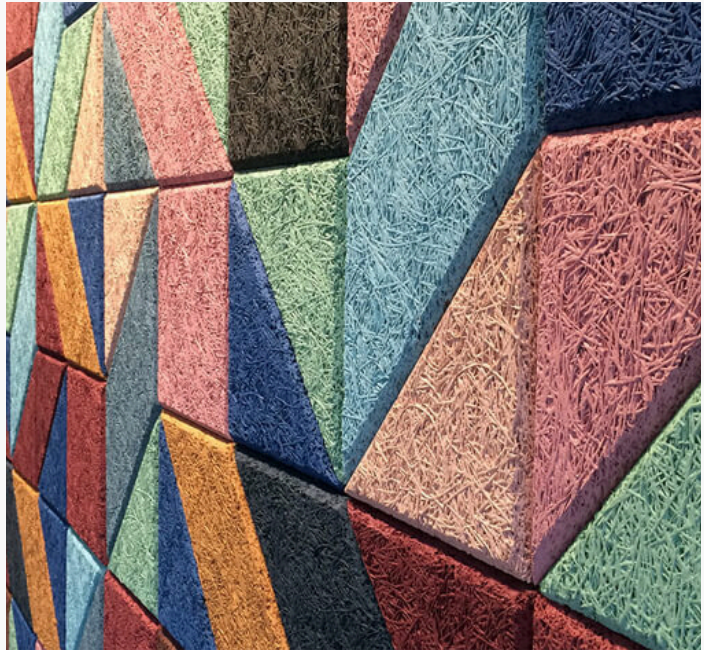

- Resolves noise and echo \*
- 25 MM thick Fiberglass Insulation used \*
- Insulation stitched into a 100 MM box \*
- Industrial and Commercial use \*

---

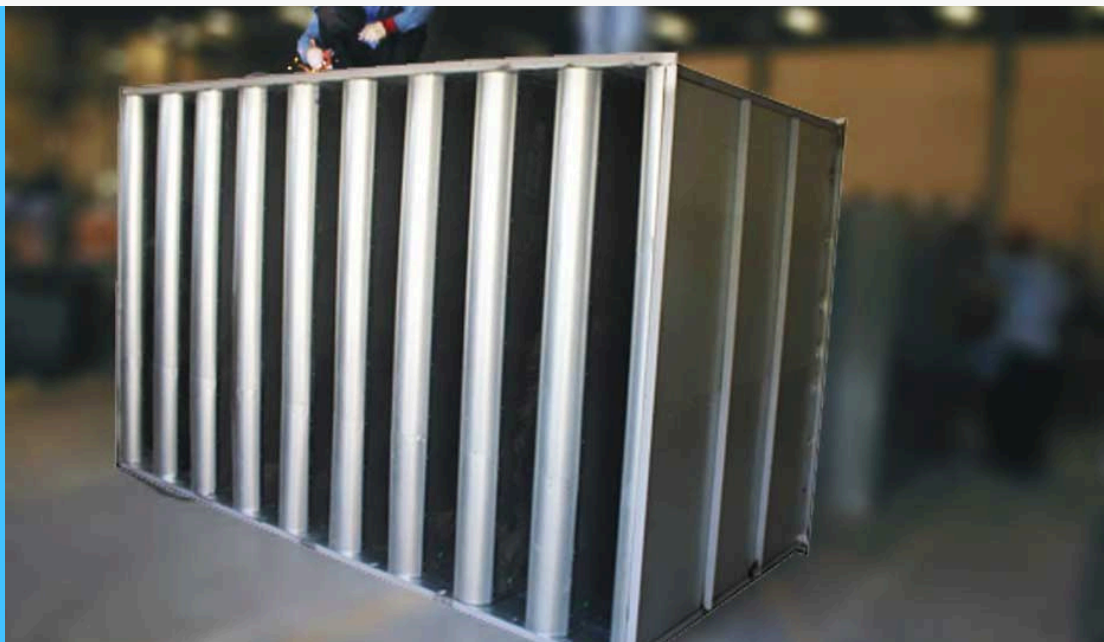

## Wood wool Penals

- Sound Absorption
- Thermal Insulation
- Environmental Sustainability
- Fire Resistance
- Durability and Longevity
- Healthy Indoor Environment
- Ease of Installation
- Cost-Effective Solution
- Suitable for walls, ceilings, and partitions, they offer versatile application possibilities in construction and renovation projects.

## Sound Attenuators

- Resolves noise and echo
- Rockwool and Fiberglass Insulation used
- Power coated colors
- Industrial and Commercial use

## Acoustic Louvers

- \* Resolves noise and echo
- \* Rockwool and Fiberglass Insulation used
- \* Customized Depth
- \* Single Bank or Double Bank
- \* Powder Coated Colors
- \* Industrial and Commercial use

## ✓ Wall Padding

- \* Prevents Risk of Injury
- \* Customized Thickness
- \* Customized sizes
- \* Customized colors
- \* High Performance
- \* Eco Friendly
- \* Educational Institutions

# Thank You

## Because, we're here to help

Sigma Accoostik Products are Eco Friendly made from 100% Polyester Fibers with no chemical hardeners, binders and certified low VOC.
